Michael Logic™

Principal Solution Architect

Pushin Keys workforce training curricula will be developed by the executive *Grid Hoppers* and executed by *Open Plugory Network 501(c)3*. To assist with America's urgent need for rapidly evolving our aged power grid, we are uniquely qualified to deliver IP and strategy for creating more *Grid Hoppers*; workers that assemble, install and/or operate products and systems for the new Age of Energy Intelligence (EI).

GRID HOPPERS

- VR/AR Kinetic Energy Simulations
- VR Assembly Line Management
- VR/AR Plugory components installation
- Juice DES™ Management
- Fabrication / 3D printing (Fort Meade, MD)
- Supply Chain & Last Mile Logistics

JUICE DES

is the management platform that produces true **energy intelligence (EI)** by engaging in diplomacy with data silos of microgrids and long duration energy storage facilities. Now we have more juice for the optimization of AI and quantum computing.

"In too many environments, from warehouse to ports, there is no cost to wasting a trucker's time. We've gotta fix that!"

PETE BUTTIGIEG
U.S. SECRETARY OF
TRANSPORTATION

In 2021 Michael Logic pushed the final keys on automated solutions to a decades old multi-billion dollar issue in trucking; asset detention.

"Chicago Born Innovators serve a solution to Pete B!"

PUSHIN KEYS
FOR THE TALENT PIPELINE CHALLENGE

**A story of a determined Chicago Born Innovator
told by Tarell Alvin McCraney?!**

Open Plugory Network 501(c)3 seeks donations to inspire and train young untapped American talent. Contribute to the story of a Chicago born innovator that persevered to create enough commercial value with renewable energy and microelectronics innovation to start a necessary, national workforce movement.

Michael's gripping story can be written and produced by Academy Award winning Tarrell Alvin McCraney.
